

TOHEED REHMAN

Full Stack Developer

☎ +92 3368894775 ✉ Toheedrehman775@gmail.com [in linkedin.com/in/Toheed Rehman](https://www.linkedin.com/in/ToheedRehman)

SUMMARY

Full Stack Developer with knowledge of front-end and back-end technologies like HTML, CSS, JavaScript, FastAPI, React, and Node.js. Skilled in building responsive websites, creating APIs, and working with databases. Able to handle the full development process from design to deployment. Interested in building useful applications and working in fast-paced team environments.

TECHNICAL SKILLS

Web Development: React.js, Next.js, Node.js, Express.js, FastAPI, MongoDB, Tailwind CSS, Redux

Programming Languages: JavaScript/TypeScript, Python, Java, C/C++, OOP, SQL, PostgreSQL

Data Science and Analysis: Data analytics skills, knowledge of machine learning and deep learning

Databases: PostgreSQL, SQL, MongoDB

Tools: Git, GitHub, ClickUp, Docker,

Experience

Web Developer

1st Oct 2025 – 30th Nov 2025

ARCH TECHNOLOGIES (Remote)

Tools: React.js, Next.js, Node.js, MongoDB, Tailwind CSS

- Developed responsive web applications using React.js, Node.js, HTML and Tailwind CSS, improving user navigation and load times across key company portals.
- Built RESTful APIs with Node.js and MongoDB to manage dynamic datasets, enabling seamless integration with front-end dashboards.
- Optimized front-end performance and UI components, reducing page load times by 30% and enhancing user engagement.
- Collaborated with 4 analysts and 2 senior managers to translate business requirements into interactive web features and KPI dashboards.

Projects

E-Commerce Website

Jan 2025 – Feb 2025

- Developed a fully responsive e-commerce website with product listing, search, cart, and checkout functionalities.
- Implemented RESTful APIs with Node.js and MongoDB for product management, user authentication, and order processing.
- Enhanced UI/UX using Tailwind CSS and HTML, improving user engagement and navigation across devices.
- Integrated secure payment gateway using Stripe API, ensuring safe and seamless online transactions.
- Implemented client-side and server-side form validation to prevent errors and improve user experience.
- Optimized website performance, reducing page load time by 25% through image compression and code splitting.
- Deployed website on Vercel and configured MongoDB Atlas for cloud database hosting, enabling scalable access for users.
- Collaborated with 2 peers using Git and GitHub for version control and feature branching.
- **Skills/Tools Used:** React.js, Node.js, MongoDB, HTML, Tailwind CSS, Git, GitHub, Vercel, Stripe API, RESTful APIs

Learning Management System (LMS) Web App

Mar 2025 – Apr 2025

- Developed a web-based LMS allowing instructors to create courses, upload materials, and track student progress.
- Built front-end using React.js, HTML, and CSS for responsive and intuitive UI/UX across devices.
- Implemented back-end with Django and Python, handling user authentication, role-based access, and course management.
- Integrated SQLite/MongoDB to store student data, course content, and progress tracking.
- Created dynamic dashboards for students and teachers, showing course completion, grades, and activity analytics.
- Deployed the LMS on Vercel/Heroku, ensuring scalable access and real-time updates for multiple users.
- **Skills/Tools Used:** React.js, Django, Python, HTML, CSS, SQLite/MongoDB, Vercel/Heroku, RESTful APIs, UI/UX Design

Skin Lesion Detection and Classification Web App	Apr 2025 – May 2025
– Developed a web-based application to detect and classify skin lesions using convolutional neural networks (CNNs). – Built the front-end using React.js, HTML, and CSS for a user-friendly interface to upload and view skin images. – Implemented the back-end with Python (Flask) and integrated TensorFlow/Keras models for real-time image classification. – Preprocessed and augmented a dataset of dermoscopic images to improve model accuracy and reduce overfitting. – Deployed the application using Vercel/Heroku with MongoDB for storing user submissions and prediction history. – Achieved a classification accuracy of over 90%, providing a potential tool for early skin cancer detection. – Skills/Tools Used: Python, TensorFlow, Keras, OpenCV, CNNs, Flask, React.js, HTML, CSS, MongoDB, Vercel/Heroku	

AI Assistant Web Application	Feb 2025 – Mar 2025
– Developed an AI-powered assistant capable of answering queries, performing analytics, and providing recommendations via a web interface. – Built front-end using React.js, HTML, and CSS for a responsive, user-friendly interface. – Implemented back-end with Python (Flask) and integrated natural language processing models (using TensorFlow/Keras and Hugging Face Transformers) for understanding and generating responses. – Connected MongoDB to store conversation history, user preferences, and session data for personalized interactions. – Deployed the AI assistant web app on Vercel/Heroku to enable scalable access and real-time query handling. – Optimized NLP model and API endpoints to reduce response time and improve user experience. – Skills/Tools Used: Python, Flask, React.js, HTML, CSS, MongoDB, TensorFlow, Keras, Hugging Face Transformers, RESTful APIs, Deployment on Vercel/Heroku	

Awards & Certifications	
• Web Development Internship and Training Program Certificate – Arch Technologies (2025): Completed an 8-week internship program focused on HTML, CSS, JavaScript, and React, gaining practical experience in building responsive web applications.. • Artificial Intelligence and Machine Learning CertificateCompleted training in fundamental AI and machine learning techniques.. • Best Final Year Project – 2025 (HEC Award): Won cash prize for project “Classification and Detection of Skin Lesions Through Machine Learning Methods”, achieving 97.86 percentage accuracy using a CNN model on the HAM10000 dataset..	

Education	
Bs Computer Science Bs (CS)	Graduated: 2025
<i>Iqra University Main Campus</i>	<i>CGPA: 3.3 / 4</i>
HSSC (Pre-Engineering)	Graduated: 2020
<i>Govt. Shah Latif College Kamber,BISE Larkana</i>	<i>A1 Grade: 948/1100 Marks</i>
SSCII (Pre-Science)	Graduated: 2018
<i>Govt.(P) High School Kamber,BISE Larkana</i>	<i>A Grade: 626/850 Marks</i>
